## 1. Introduction

Northampton Rugby Football Club invites and welcomes disabled people, and their companions, to attend Franklins Gardens and use its facilities, both on match and non-match days.

The Club provides match day and other conference and function facilities which are accessible for disabled people.

Where any access issues are identified, the Club is committed to exploring avenues to remove those identified barriers that are necessary and reasonable within the spirit and requirements of the Disability Discrimination Acts of 1995 and 2005 and the Equality Act 2016 to improve access for all. To assist this process the Club is committed to undertake regular consultation with its supporters, and other users, with disabilities and their companions. Notwithstanding this, the Club reserves the right to refuse access to areas of the ground for disabled people where it is shown by risk assessment that it would be in contravention of overriding Health and Safety legislation.

## 2. Definition

Northampton Rugby Football Club recognises that the term 'Disability' is a very broad term. Like non-disabled people, disabled people come in all shapes, sizes and ages. They also have varying degrees of disabilities.

The Club recognises the following definitions of disability:-

### Disability Discrimination Act 1995

*'A physical and/or mental impairment which has a substantial and long term adverse effect on a person's ability to carry out normal day to day activities'*

### The Social Model

*'Disability arises from the interaction of people with impairments, with excluding social, material and organisational barriers.*

*The problem is not with the individual.*

*Without the social, material or organisational barriers, the impairment would still exist but the disability would not. The problem is not with the individual but the way that society reacts'.*
