# HOW TO FIND US

Whether you are travelling by car or public transport, Franklin's Gardens is easily accessible from the entire country and beyond.

## BY CAR (M1 MOTORWAY)

cinch Stadium at Franklin's Gardens has over 1,500 spaces available across six car parks, all within walking distance of the stadium itself. Given that cinch Stadium at Franklin's Gardens is in a residential area of the town, Saints strongly urge all supporters to use the club's car parks. Should they choose not to do so, supporters must park with due care and respect to the needs of local residents and businesses.

Exit the M1 at junction 15a or 16 and follow the signs to Northampton and Sixfields, or alternatively follow the brown rugby ball signs. At third roundabout after leaving the motorway, turn right onto A5076 (next to the Sixfields football stadium).

Go straight over the mini roundabout onto Edgar Mobbs Way where the stadium car parks are clearly signposted. Media access parking is located in Car Park D, on the left hand side, opposite the pay and display car park.

Please use the postcode NN5 5JT for satellite navigation devices, as most systems will take you to the main entrance of the ground not the car parks.

## PUBLIC TRANSPORT

On leaving Northampton Train Station there is a taxi rank available, or alternatively you can catch the Number 9 bus from the other side of the main road.

If you are able, walking to the ground from the train station takes just 10 minutes. Simply turn right out of the station onto Weedon Road and follow that round to the stadium.

Be sure to cross over to the left-hand side of the road (where the Thomas A Beckett pub is situated) to avoid confusion. cinch Stadium at Franklin's Gardens can then be clearly seen on the left hand side of this road.

## NEAREST AIRPORTS

London Luton and Nottingham East Midlands are easily accessible by road from Northampton via the M1. Birmingham International is also within reach and has a direct rail link with London Midland trains.

## WHAT3WORDS

cinch Stadium at Franklin's Gardens uses what3words to help find precise locations at the venue. Every 3m square has been given a unique combination of three words: a what3words address.
