The Foundation is made aware of pupils with medical needs through their educational providers and on their referral forms. It requires that the appropriate level of insurance is in place and appropriately reflects the level of risk, with risk assessments being carried out, when appropriate.

Any medical conditions will need to be disclosed for pupils to participate in Foundation trips and sporting activities and not prevent them from doing so.

Staff at the Foundation will remind the pupil when to take their medicine but will not be solely responsible for a pupil's how and when a pupil takes their medicine or the storage.

It is the parents and educational providers responsibility to provide the Foundation with up-to-date information on a pupil's medical records.

Medical emergencies will be dealt with under the Foundation's emergency procedures.
